General Entrance Requirements

- 1.1 Applicants are considered solely on the basis of their academic merits, abilities and potential, regardless of gender, ethnicity, national origin, disability, religion, sexual orientation or any other irrelevant distinction.
- 1.2 The minimum age limit to enrol on a course is 18 years. If the applicant is under 18, then the application has to be made by the parent or guardian.
- 1.3 Qualifications required for admission vary from programme to programme. Information about the specific entrance requirements for each course can be obtained from the course outline or Rushmore's website.
- 1.4 Consideration is given as to whether applicants have the academic aptitude to fulfil the objectives of the programme of study and achieve the standards required by the awarding body or institution.
- 1.5 A range of factors additional to, and in some cases instead of, formal examination results is considered in the selection process. These can include the personal statement of the candidate, references, additional evidence of achievement, motivation and potential as gathered through interview or assessment of written materials, other factors as appropriate to the discipline, such as employment or volunteer work in relevant fields and sustained critical engagement with relevant issues.
- 1.6 Achieving examination grades equivalent to or above the standard offer for a course does not automatically entitle a candidate to an offer.
- 1.7 Applications are subject to final approval by the awarding body or institution.
- 1.8 Students registered on a full-time programme of study at Rushmore may not be registered on another full-time programme at another institution, unless Rushmore has granted permission. However, where such permission is granted, resulting academic pressure will not be accepted as mitigating circumstances for poor academic performance.

Language Requirements

- 1.9 If there is any doubt about an applicant's English language ability, and if applicable, Rushmore reserves the right to require him or her to achieve a satisfactory score in an English language test.
- 1.10 Where courses are taught in another language besides English, Rushmore reserves the right to request a candidate to provide proof of language competency in order to be considered for the programme.

Registration

- 1.11 Students are required to complete a registration process when they commence their studies with Rushmore and will only be formally admitted to Rushmore as registered students on satisfactory completion of this process.
- 1.12 Students undertaking any programme of study of more than one year's duration including students who are in a period of deferment will be required to complete an annual re-registration process. Failure to complete the annual re-registration process by the specified deadline may result in students being withdrawn from their programme of study.
- 1.13 After registration, students may only change or vary their programme of study with the permission of the School.
- 1.14 Transfers between programmes will be approved by the School subject to the student meeting the entry requirements and subject to availability of seats on the programme.

Deferral and Withdrawal from Studies

- 1.15 A student may be granted a period of deferment subject to the approval of the Academic Director, and where it is accepted that s/he has personal mitigating circumstances. A deferment of studies is an approved absence from the programme of study and assessment for an award. Deferment of studies indicate that a student is not actively studying but remains registered with Rushmore.
- 1.16 An applicant accepted for admission to a programme with a stated start date may request a deferral of entry to a later start date. Applicants will receive a new offer letter detailing the new start date and will retain their applicant status.
- 1.17 A student wishing to withdraw from any programme should notify the School in writing immediately.
- 1.18 In cases where, due to non-attendance, the School considers that a student has withdrawn from a programme, the student will be contacted at their last registered address and asked to contact the School by a specified date. If a student fails to respond satisfactorily by the specified date, it will be assumed that they have withdrawn from the course.

Accreditation of Prior Learning

- 1.19 A student is responsible for applying for recognition of prior learning and for providing all required evidence at the time of application to Rushmore.
- 1.20 Rushmore may recognise certificated or experiential learning for the purpose of exemption from the requirement of programme of study and assessment, whether it has been undertaken at the School or elsewhere.

6.0 Quality Assurance

- 6.1 The maintenance of high standards of quality in teaching and learning is one of the main concerns at Rushmore. The overall responsibility for the Quality Assurance Procedures and their role in improving the learning and teaching process within the School resides with the Director who develops and implement systems to meet the requirements of local authorities and overseas institutions.
- 6.2 The content and design of all programmes are under constant review at Rushmore in the light of subject developments and changes in the external environment. The views of external examiners, professional and accrediting bodies, employers and students, are all taken into account in the development of courses. Programme content is therefore subject to changes.
- 6.3 Routine evaluation of programmes is central to the assurance and enhancement of quality in learning and teaching. Course evaluation enables Rushmore to gather the views of students on each of the programme of study as a whole, to identify strengths

and weaknesses, overlaps and deficiencies.

- 6.4 Students' evaluation on the teaching of staff (SET) is gathered through student evaluation questionnaires. The objective of this exercise is to maintain effective, up-to-date teaching practices throughout the School and to allow academic staff to reflect and improve on their teaching.
- 6.5 Students' evaluation of modules (SEM) is also carried out to gather feedback from students on modules for curriculum development. Information obtained from SEM is reported back to degree awarding bodies and institutions for necessary improvements/amendments to modules.
- 6.6 Feedback from students is considered as an important ingredient in ensuring high quality levels of teaching and learning. Students have the opportunity to elect two representatives for each course to sit on the Staff/Student Consultative Committee (SSCC). The purposes of the SSCC are to ensure that the views of students are given proper weight in the processes of course and module review, and to ensure that the concerns of students about their courses of study are represented to the academic staff throughout the academic year.
